

Welcome!

We hope you enjoy this beautiful barn, built over 300 years ago as part of Northcourt farm. The farm itself dates back almost 1,000 years, when it was started by the monks of Abingdon Abbey. Right up to 1945, the farm barns were working buildings, full of crops, machinery, and animals; and then until the 1990s, they housed a dairy.

Then the barns stood empty, until the people of Christ Church (that's the church in the other barn you can see across the car park) decided it was time to bring them to life again - to buy them, rebuild them, and create something special for the community.

After years of hard work, the vision became a reality.

All those centuries ago, the monks of Abingdon were big on offering hospitality to all. So what we're doing now is following in their footsteps.
